GO BP — candidate genes
Regulation Of Erythrocyte Differentiat
Erythrocyte Differentiation
Positive Regulation Of Erythrocyte Dif
Positive Regulation Of Myeloid Cell Di
Myeloid Cell Differentiation
Regulation Of Cell Population Prolifer
Negative Regulation Of Cell Population
Regulation Of Myeloid Cell Differentia

20
−log10 adj.P (candidates)
GSEA — pathways of interest
Complement and coagulation cascade
TNF-alpha Signaling via NF-kB
heme Metabolism
Reactive Oxygen Species Pathway
IL-6/JAK/STAT3 Signaling
Hypoxia
Ferroptosis
HIF-1 signaling pathway
